

ASSIGNMENT 5

JS Story in Console

OVERVIEW:

It's time to create a story using a JavaScript object with cool values and nifty functions. Then, unleash the story-beast onto the Developer Console using the trusty `console.log` command. Let the storytelling adventure begin!

REQUIREMENTS:

Include:

- Five variables: string, number, boolean, array, object.
- Three functions, one with a parameter.
- `Array.forEach()` usage.
- Two if/else conditions, including one that changes a boolean.
- `console.log` statements in each function to support your story.

Story Requirements:

- At least 20 lines long.
- Must be coherent and make sense.

Function Requirement:

- Include a `startStory` function that calls all storytelling functions.

SUBMISSION NOTE:

- Place all files in a folder called **firstname_lastname**
Zip your folder and submit it to Blackboard.

EVALUATION BREAKDOWN:

- Include comments in the .js file.
- Proper use of data types.
- Use `Array.forEach()`.
- Check and modify a boolean variable with if/else.
- At least one additional if/else condition.
- Minimum of 3 functions, one with a parameter.
- Call `startStory()` to execute all functions.

This project is worth 15% of your final grade.

ASSIGNMENT 5

JS Story in Console

CRITERIA	DESCRIPTION	EXCELLENT	GOOD	NEEDS IMPROVEMENT
VARIABLES <i>4 points</i>	Includes five variables: string, number, boolean, array, object.	All five variables are present and used correctly.	Most variables are present with minor issues.	Missing or incorrect variables.
FUNCTIONS <i>4 points</i>	Includes three functions, one with a parameter.	Three functions included, with one using a parameter effectively.	Fewer than three functions present but with minor issues.	Fewer than two functions or parameter usage issues.
ARRAY FOREACH() <i>2 points</i>	Uses Array.forEach() method.	Array.forEach() is used correctly and effectively.	Array.forEach() used but with minor issues.	Array.forEach() is missing or incorrect.
IF/ELSE CONDITIONS <i>3 points</i>	Includes two if/else conditions, one affecting a boolean.	Two if/else conditions used correctly, with one changing a boolean.	Two conditions present but with minor issues.	Less than two conditions or incorrect boolean handling.
STORY LENGTH & COHERENCE <i>1 point</i>	Effective use of different font sizes to establish visual hierarchy.	Excellent use of varying font sizes to create a clear visual hierarchy.	Good use of font sizes with some hierarchy established.	Limited use of font sizes or unclear visual hierarchy.
STARTSTORY FUNCTION <i>1 point</i>	Includes a startStory function that calls all other functions.	startStory function correctly calls all storytelling functions.	startStory function included but with minor issues.	startStory function missing or incorrect.
